Summary: As a Software Developer based in Abuja, Nigeria, I am passionate about creating innovative and efficient applications. With a strong foundation in frontend technologies such as HTML, CSS, and JavaScript, I create engaging and intuitive user experiences. My strong problem-solving and communication skills, along with my ability to work well in a team environment, make me an asset to any development project. I am excited to continue learning and growing as a developer while creating meaningful and impactful applications.

Technical Skills:

- Frontend: HTML/CSS, SASS, JavaScript, React, Responsive Web Design, Bootstrap, Figma, Git/GitHub, Tailwind CSS, AJAX/AXIOS, Node.js
- UI/UX: Figma, Fig Jam, Freehand, Miro, Wireframing & Prototyping, User Experience Research
- WordPress: Elementor, themes, control panel, SEO optimization.
- Backend: PHP, Node.js, MySQL
- Graphic Design: Adobe illustrator, Adobe Photoshop, Corel draw
- Expertise in use and training of Microsoft Office Suite

Projects:

- JobPlus (Job Site Search Engine Frontend) - I built a job site search engine interface. Utilized Tailwind CSS, SASS, Flexbox, and Grid for styling and layout. <https://github.com/kenmillionaire/jobplus>
- Weather App - Deploying weather API. <https://github.com/kenmillionaire/Vanilla-Weather-App>
- To-do App with React and SASS - <https://github.com/kenmillionaire/todo-app>
- Basic store list showing available and out-of-store goods using React, Vite, and Tailwind - <https://github.com/kenmillionaire/MySportShop>
- Alumni-donate - a platform that allows college organizations to create a simple platform for their alumni to give back to the organization. (Live project done in a team - <https://github.com/zuri-training/Team-Badgerw2>). Etc.
- UI/UX Portfolio: <https://drive.google.com/file/d/1s-cVDezw1zo3qdbJdpuWyp7UWjMib5yv/view>

Education:

- Codehance Virtual Tech Training, UK | JavaScript, React & Basic Node.js HTML5, CSS3 and ES6/5, SASS, Tailwind | 2022/2023
- SheCodes Virtual Training | Basic, Responsive & React Certificates | 2022/2023
- Kodehauz/Kodecamp Bootcamp | Certificate in UI/UX | 2022

- Master of Science in Information Technology | UCN | Dec. 2017
- Certificate in Advanced Web Design and Animation | CSS2, HTML | 2008
- Master of Business Administration (MBA) | Lagos State University | 2005
- Microsoft Certified Systems Engineer | 2000
- Bachelor of Technology in Industrial Chemistry | Federal University of Technology Akure, Ondo State | June 1991

Work Experience: Software Developer/Head of ICT Unit (1999 – Present)

OPTOMETRISTS & DISPENSING OPTICIANS REGISTRRTION BOARD OF NIGERIA

Responsibilities:

- Built and maintained the company's website, ensuring optimal user experience and functionality up until 2022.
- Collaborate with other designers and developers to enhance the UI software architecture and improve software performance.
- Utilize agile development methodologies such as Trello and Asana to manage projects, adhere to deadlines, and deliver quality code.
- Provide technical support to staff and customers, troubleshooting, and resolving issues in a timely manner.
- Developed, compiled, and maintain the database of professionals registered with the company.
- Developed custom software solutions to improve workflow and automate tasks: e.g., by using Microsoft Excel to manage the debtor database thereby streamline the debt collection process and automate tasks such as generating reports and sending out reminders to debtors.
- Administration of the control panel for e-mails and other applications on the company website
- Control and monitor e-mail use, web navigation and installed software.
- Conducts computer training for staff in various departments/branches of the company.
- Supervise the Installation and maintenance of computer hardware, networking software, operating system software and software applications.
- Supervise the Network Administration and Monitoring team.
- Prepare ICT Services/Equipment needs list and perform needed procurement tasks in conjunction with the procurement unit.

Achievements on the job:

1. When I joined ODORBN in 1999, there was no I.C.T Department. However, due to my passion, drive, and relentless pursuit of knowledge, I was able to establish the department by 2005 and have been serving as the Head of the Department since then.
2. In 2008, I designed the logo for the organization as well as the registration and annual renewal forms.
3. In 2010, my organization was considering hiring an I.C.T company to develop and maintain its website. However, I took the initiative to acquire web design and maintenance skills, which helped me save the organization millions of Naira. Consequently, I designed and maintained the website from that point until 2022 when it was contracted out due to government financial reforms. Currently, I oversee a team of designers and developers and continue to maintain and update the company website - www.odorbn.gov.ng.
4. As the head of ICT unit, I expanded the technical scope of all the 87+ staff members by conducting a yearly computer training for all the members of staff in my organization. I successfully trained all staff members in Computer Appreciation, Windows Operating Systems, Internet Functions, Microsoft Word, Microsoft Excel, and Microsoft PowerPoint from year 2011 till 2017.

Community/Social Work: Program coordinator and principal trainer/instructor (2003 – Present)

HEAVEN ON EARTH MINISTRY (H.O.E.M) FREE COMPUTER TRAINING PROGRAM

As part of my community work, I coordinate the H.O.E.M Computer training program, a free initiative of Heaven on Earth Ministry Church (Lagos, Nigeria) that provides computer training for the church and the surrounding community. The program has successfully graduated over 2000 students who have been awarded certificates. In my role, I am responsible for developing training manuals, creating the course timetable, and training the participants.

Additional Skills:

- Agility in learning new technologies.
- Fluent in English.
- Excellent written and verbal communication skills.
- Strong teamwork and collaboration skills
